

FOR IMMEDIATE RELEASE

New From Winston - The Nexus

The WINSTON NEXUS is Winston's revolutionary new light all-graphite smooth action, premium rod series. These fantastic new high performance deep-black fly rods redefine the high modulus all-graphite rod category with an innovative new fast action combining Winston's legendary ultra-smooth 'Winston Action' with more modern, faster tapers.

The new Winston Nexus is a full series (3-weight through 12-weight) of exceptionally beautiful, smooth-casting "all-around" fly rods utilizing a new design to handle a range of conditions with faster tapers, especially through the lower half of the rod. They are a joy to cast, can generate added power when needed, and are made to Winston's extremely high standards of beauty and craftsmanship in Twin Bridges, Montana.

Because they are made with 100% graphite, without the significant added expense of Boron III, we can offer anglers the opportunity to own these incredible, smooth-casting fast-action premium Winston fly rods at an attractive savings from our top-of-the-line high performance Boron III rods.

HIGHLIGHTS
